

KERALA AGRICULTURAL UNIVERSITY

PROSPECTUS FOR ADMISSION TO

Diploma

in

Agricultural Mechanization

2024 - 25

1. INTRODUCTION

There is a dearth of suitably skilled personnel in agricultural mechanization sector. People with skills in operating, maintenance, service and repair of agricultural machinery are necessary to augment the thrust being place on agricultural mechanization. This 2-year diploma programme proposes to create a group of youth skilled in the operation, service, maintenance and management of agricultural machinery in the State. Agricultural mechanization is being promoted extensively through various Central and State government programmes and there is immense need of qualified operators of agro machinery and skilled personnel in operation and repair of machinery. R&D works in agricultural mechanization also require skilled personnel. This course aims to build capability to operate different kinds of agricultural machinery, to repair, service and maintain different agricultural machinery and to build entrepreneurial skills to set up custom hiring service centers and other small enterprises in agricultural mechanization sector to promote self-employment.

2. COURSE OBJECTIVE

1. To build competence of youth to operate different kinds of agricultural machinery such as tractors, power tillers, transplanters, and all other farm equipment.
2. To strengthen capacity to repair, service and maintain different agricultural machinery.
3. To impart entrepreneurial skills to set up custom hiring service centers and other small enterprises in agricultural mechanization sector to promote self-employment.
